DRS. FITTZ & WILSON, DENTAL SURGEONS,

"HAVING had the advantage of a thorough Dental education, offer their Professional services to the clilizens of Louisville and viemity. Dr. Fittz's skill in Mechanical Dentistry can be seen at their office, specimens of which took the first Premiam and Diploma at the United States Fair In 1867. Dr. Wilson has been treating aching teeth successfully for the last five yetrs by destroying the nerve without pain, filing the fangs and crown with gold, restring the tooth to its natural shape, and making it as uneful as before decay. Do not have your teeth extracted until you are certain they cannot be saved,—Mor than fifty percent, of the teeth usually extracted can be made useful through life. We are daily treating and filling teeth of this class that comes into be extracted. In no case do we disfigure a tooth by filing to fill it, using other and better means than the ludiscriminate use of the file. Any tooth can be filled with gold that is worthfulf ing at all. We use, when requested, a local anesthesis to prevent pain in extracting teeth. DENTAL SURGEONS, gold that is worthidd ing at all. We use, whear requested, a local amesthesia to prevent pain in extracting teeth. All operations warranted as represented, and terms as illeral as any good Dentist can afford.

DAILY COURIER.

room, on Wednesday evening, Dec.1st, at 7 o'clock.

to the 8th of January convention. A SAFE FOR A SAFE BANK. - We had the pleasnre, yesterday, of examining one of Harig's hnrglar-proof safes, intended for the Glasgow hranch of the Northern Bank of Kentucky. This model safe was built expressly for the institution concerued, and is one of the hest specimens of work that has ever been manufactured at the Kentucky Lock Works. Capt. A. C. Harig has exercised his atmost ingenuity in the production of this "institution." Its walls are composed of onethird inch iron, three inch steel, and one fourth iron. The holts are of steel, and the hinges of the same, and are of sufficient strength to cut glass. This safe is not only warranted to he burglarproof, but is to be placed within one that is impervious to fire. It is furnished with one of darig's new combination locks, so that the thief who attempts to intercept any valubles will be

completely dum-founded. Capt. Harig has also in process of construction hurglar-proof safe for the hranch of the Bank of Kenucky at Hopkinsville.

All of our State institutions have tested the ability of Capt. Harig in the constuction of safes and locks. They unite in commending his labors as the best in the country. He excels, as has been demonstrated, even the great Hohbs. At his stablishment, on Third street, in the old posteffice huilding, he may he always found, ready to to explain the operations of his very wonderful eventions.

ARREST OF THE BURGLARS .- We mentioned yes enday the arrest of Dan'l Johnston and Charles Daley, accused of robbing the store of Magness & Myers, on Saturday night. Chief Ray and prirate watchman Thos. Slater, succeeded in capturng Henry Evans, another of the suspected camps, in Jeffersonville yesterday. These men, it is well understood, are the enterprising individuals who also robbed the establishment of Dickson & Gilmore, some weeks since. A number of pistols and kuives, which they got hy that hurglay, were found in their possessiou, or at their boarding house. Nearly all the goods taken from Magness & Myers were also recovered. One of the burglars told the chief that they got into the store of Magness & Myers by going down through the front grating iuto the cellar, and then up through the trap door, which was unfastened. He hen broke the lock off and admitted one of his onfederates, who stood at the door, while the third kept watch on the street.

Mr. Ray, chief of the police, and Thomas Slater, private watchman, deserve credit for the prompt and efficient manner in which they pursued and arrested the burglars.

THEATER. - A large audience attended the the ter last evening. The drams of the "Knight of Arva" was well cast and played. Mr. Floreuce did justice to "Connor the Rash," while Miss Ida Vernon was a most graceful " Duchess." She was dressed, as she always is, with exquisite taste .--The "Lesson for Hushands," a protean piece, next followed, with Mrs. Florence in six favorite characters, all of which she played to the unbounded admiration of those who were there to see. Mr. Florence's "Paddy Murphy," in the coincdy of the "Happy Man," was so natural, one might well think he was the happiest fellow alive.

The bill for to-night consists of the "Irish Hus sar," "How to Get Out of It," and "Bumpology," all excellent pieces, in which the Florences sustain the principal characters. Bnyers will recollect that Messrs. S. G. Hen ry & Co. commence their large cash sale of dc-

sirable winter dry goods and winter gloves this morning, (Tuesday,) at 10 o'clock, at auction rooms. At 12 o'clock precisely, and to which they would call the special attention of clothing and furnishing merchants, an invoice of Louisville made heavy over and husiness coats, with a splendid line of gent's woolen, merino, and Canton flannel underwear, silk plush caps, gingham umbrellas, and heavy knit jackets.

John Jahu was committed to jail yesterday, on a warrant accusing him of feloniously appropriating a note from M. S. Field, on which there was due a balance of \$33. It is stated that the lawyer presented the note for payment, and Jahn took it, saying he would pay the principal hut not the interest. The lawyer dcclined receiving the amount proposed, but Jahn then refused to give up the note. Hence the warrant, and whether it constitutes felony or not, courts, not

We are pleased to learn that the disaster n the Nashville railroad, last week, was not of such a serious character as reported. Under the superintendence of Mr. J. F. Gamble, this has proven one of the most secure and rapid roads in the country. The trains make excellent time, and notwithstanding the "hog caravans," everything is on the track and in proper order. No road can boast of superior management.

REMANDED TO JAIL BY HIS FATHER .- Our readers will remember the arrest, several weeks since, of Officer Mitchell and his son for killing a German, n l'ortland. They were released upon bail. The son left custody, perhaps fearing a trial, was pursued by his father and arrested. The father deivered him to the officers of the jail, and then the manly feelings which had previously sustained

him were overcome, and he wept as a child. that this institution is to he addressed this evening by Rev. Dr. Hiram A. Hunter, and that entered apprentices and fellow crafts are specially invited. We are gratified to learn that the 'School of Instruction,' under charge of the indefatigable Grand Master, is doing much good in

lispensing knowledge amongst the craft. Dr. HUNTER AT THE LOUISVILLE HOTEL. - We are pleased to record the arrival of this justly celeprated physician in our city. His system of treatnent, based as it is on great experience, is spoken of in the most flattering terms by the hest medical ournals of the country. Mississippi River Railway. The last session of the legislatures of the States of Tennessee and Kentucky, passed a charter for a railrond with the above name. The company

BRUTUS J. CLAY, Pres't. a railroad with the above name. The company has been organized, under the provisions of the charter. The road is to extend from the city o Memphis, to a point on the Ohio river, opposi Cairo. It is to be built along the east bank of the Mississippi river, conforming to the general direction of the river, with such easy curves as to make the embankment answer all the purposes of a first-class levee, for the protection and reclamation of the swamp and overflowed lands, situated in the Mississippi river bottom, in the States of Kentucky and Tennessce. The company was or ganized last spring, and is now in the field, rais ing the funds to build the levee and road. The company will make application, probably,

to the ensuing session of Congress for govern

They base their claim upon the fact, that in the year 1850, Congress donated to Missonri and Arkansas all the swamp and overflowed lands lying in their borders as a fund to enable these States to build levees, and cut drains, for the reclamation of these lands, and the closing out the annual in undations from the Mississippi river. These States have partially constructed their levecs, and will have them completed in a few years, the result of which partial construction, and the final comple tion of this work, has been, and will be, the increase of waters, in the periods of high water, on the bottoms hordering the eastern shore of the river. It is estimated, and believed, that when the levees are finished on the west bank, the water will be increased in hight on the east bank at least two feet. The levees on the west side are completed, and are to be finished two feet and a half higher than the high water mark. The consequence is to throw the redundant waters on the east shore, until the river gets high enough to overflow its levees on the west shore, and as they are being built so as never to be overflowed, the eastern shore must always be a floodgate, relieving the opposite side. This munificence of the U. S. government works a positive injury to the States of Kentucky and Tennessee, in the carrying out and the very pur poses for which the donation was made. No on loabts the policy of leveeing the west bank of the river; but while this is done by the means of the government, the east bank should be protected by the same magnanimous donor. The ground up on which this company bases its claims for government aid is well taken, and rests upon believed that if Congress will give lands or other fands enough to build a good, safe, substintial leves on the east bank, the States of Kentucky and Tennessee, the counties and people along the line of the road, and the city of Memphis, and other roads, directly interested in the success of this

Of the thirteen county meetings named above, to-wit: Bath, Carter, Montgomery, Scott, Union, Allen, Owen, Russell, Wayne, Trigg, Simpson, Breathitt and Rockcastle, only nine expressed a reference for any of the candidates now in the field for the various State offices. These were Bath, Montgomery, Scott, Allen, Simpson, Rockcastle, Breathitt, Russell and Wavne,

Of these nine counties, two expressed a preference for Talbott for Governor, one for Magoffin, and one for Boyd; one for Chiles for Lieutenant vernor, and one for Young; one for Hazlerigg and one for Smith, for Auditor; one for Garrard for Treasurer; two for Frazier for Register of the Land Office, and one for Bryan; two for Bates for President Board of Internal Improvements; and two for James for Attorney General.

By posting the books, it will be found that Talbott and Magoffin are vet far ahead of all competitors for the nomination for Governor. When we made our last week's summary, they stood even, each having had the delegates of eight counties instructed to vote for him in the convention As the matter now stands, Talbott has ten coun ties, and Magoflin nine. None of the other aspir ants have more than two counties whose delegates are instructed to go for him in the convention.

Hon. William Preston was to have left Lexington yesterday for Washington, en route for Spain He will probably remain some days at the capital, conferring with the President as to the policy to be pursued with regard to Spain. Cuba presents a very knotty question for an ambassador at the court of her Catholic majesty, and the claims of American against Spanish subjects present many questions difficult of solution. But the noble, the gifted, and the gallant Preston, will be equal to any question that may be brought before him. He is the very man for the place, the time,

We hope that he will be able to adjust the many unsettled claims between this country and Spain. Some of them have been standing for years, and the parties immediately interested are daily dying off. Spain has been permitted to trifle with this country a great deal too much. She has done millions of harm, for which she has never atoned

Indeed, if no negotiations can be made by which we can get Cuba, Col. Preston will do enough for us if he will act right these entangled claims against Spain. We want them cleared up, if such a thing be possible. They have been upon the dockit long enough. We have not space now, but we shall hereafter give our readers an idea of these claims, by presenting a partial list of them. The amount of some of them is very great in dollars and cents, and much greater in crime and outrage. It is not certain that any other country than our own would have submitted to their unsettled condition so long.

A Forthcoming New Book.

Who ever before heard of so original a subject? It is a history of all secret societies, their origin, their organization, their esoteric writings, and earliest period of the world to the present day. It portrays the history of the magi, and their celebrated mysteries, the cabbalists, the free masons, and the confraternities of the Christian church, and even comes down to the last of all, the Know Nothings. The effects of each and every society npou past history is shown.

Although there are some copies of this book out, it will probably be soon ready for publication generally. We acknowledge the receipt of a copy from the author.

Mr. Delafield is a counsellor at law at St. Louis Mo. His book is admirably written, and we advise everybody to get a copy as soon as it is publiahed. It tells many things that but few know, but that all should nnderstand.

Democratic meeting in Washington county this State passed a resolution to the effect that Stephen A. Douglas is a sound national Demo-crat, and worthy of the confidence of both North-ern and Southern Democrats. This is truly reern and Southern Democrats. This is truly re-freshing! We congratulate Mr. Douglas on being again reinstated in the confidence of the Democ-racy by the Washington county meeting. Strange to say, the meeting didn't indorse the course of Mr. Crittenden. We don't see any sense in complimenting men away off in Illinois, when there are men in this State of the Marshall, Underwood, and Crittenden school, who occupy the sam position and entertain the same views. We don't like to see this discrimination in favor of the Illi nois Senator. Is Judge Douglas the only Northern Democrat worthy of confidence that he should be singled out and complimented by resolution? Where are all the gallant Lecompton Democrats Where is Judge Hughes, of Indiana, our champi n in the national House of Representatives Defeated defeated by a Black Republican by the aid of a bolting iudependent Douglas candidate. The services of all the true northern Democrats The services of all the true northern Deniocrats has been ignored by the Washington meeting. But the Washington county meeting not only solved Donglas into a "Iruly national Deine rat." but also indorsed the administration o Buchanan. If this isn't carrying water on both ngton fellows are genuine modern Talleyrands.
If the Buchaoan wing of our party should be in
the ascendant, they will be all right, for have they not indorsed the administration? and if the Doug las wing succeed, they will be equally right, for have they not formally installed Douglas as a De mocrat? These Washington Democrats are shrewd and accommodating politicians, and forci-bly remind us of a certain class—

The Atlantic Telegraph Cable. A provincial Scotch paper has a letter from a correspondent, seemingly tamiliar with the oper-ations of Professor Thomson at Valentia Bay, which gives some information respecting the co dition of the Atlantic cable. According to this writer, the Professor's experiments have conclusively fixed the principal injury at two hundred and eighty miles from the shore; that the cable is there denuded for two inches of its gutta percha insulation, and the copper wire exposed to the action of the salt water; that the injury is irreparable, for though it can be covered with oxidation by transmitting to it a strong current of positive (copper) electricity, the oxide is soluble water, and washes off almost as rapidly as it water, and washes off almost as rapidly as it i formed; and this very exidation is at the expens of the copper wire, which is eaten away by it. The only results, according to this writer, as these: the fault can be mended temperarily at the

expense of the wire, or the wire can be preserv and the fault allowed to increase. lle says also that the few words received at Va entia a little while ago, were but a continuance of the caprice and uncertainty which have give so much annoyance since a few days after the ci-ble was landed;" and that at the time of his writ-ing, October 2d, "the usual alternating positive ing, October 2d, "the usual internating positive and negative currents are being sent in, so that the conductor must give way soon, either entirely or in part; if only one of the wires corrodes through and falls upon the onter sheathing, communication will be wholly cut off." The prospect of the present cable ever being of any practical use is grown indeed. practical use is gloomy indeed.

FRIGHTEL ACCIDENT .- Charles and George Mc Kinley, two boys, were killed at Norwalk, Ohio Tuesday last, by talling into a well. The Cleve land Plain Dealer thus narrates the horrible ac

and his two sons, Charles and George, dug a well near their house, to the depth of filty-seven feet. The well was about eighteen inclus in diameter at the top, and three feet at the hottum. Yesterday they commenced erecting a curh around the well. The windlass, which had been used for drawing up dir. was still standing over it and by drawing up dirt, was still standing over it, and b some means the bucket attached to the windlass rope became unfastened and fell to the bottom.— Que of the hoys put his feet in the iron hook at the end of the rope, and went down to recove the bucket, the other holding the windlass th while. When some ten feet on his way down, th boy slipped from the rope and fell to the bottom of the well. Mr. McKinley, wild with herror, put his other son upon the rope and bade him go down and save his brother. The boy attempted to de so, but lost his hold when some twelve feet down and fell to the bottom as his brother had befor him. A light was lowered into the weil to enabl those above—there was a large crowd congregated—to see the unfortunate lads, but the air was so foul that the light instantly went out.

A large number of men worked all yesterday afternoon to recover the bodies of the boys. They were raised several times to within eight or ter feet of the top, but the opening was so extremely small that they could not be pulled out, and fell violently back to the bottom. It was proposed to

lig the well out. The boys were aged seventeen and fourteen years, respectively, and are described as smart and worthy boys. The calamity is alike singular and shocking.

SINGULAR AND STARTLING DEVELOPMENT-A MAN CONFESSES HIMSELF A MURDERER.—Last evening a man, who gives his name as Peter Martin, wen to the police office, looking the perfect picture of despair, and aurrendered himself into the hands of the authorities, saying that he was a murderer. The first words he uttered were, "I can stand it no longer; my life is a burther, and I must reveal." Ile then proceeded to state that, about six weeks ago, he came to St. Louis, on a boat, from Cairo: that, on the way up a fellow-passenger. Cairo; that, on the way up a fellow-passenger whose name he did not know, attempted to rol him, and that while the boat was in this port h sought a quarrel with the unknown man, in which he stabbed him and then pitched the body over board, throwing the kuife after him. He could not name the boat, and, in short, the above wa all his story, which story must be regarded, true, as a remarkable instance of the remorse conscience. Everything about the man seemed to be peak the truthfulness of his statement, and at his own request, he was placed in the calaboose, to await an investigation of his representations.—St. Louis Republican, Sunday.

GREAT REDUCTION IN THE PRICES OF THEIR STOC or DRY Goods .- Martin & Penton, No. 96 Fourth street, between Market and Jefferson, will, from this time nutil the 1st January next, offer their their effects on the masses of mankind, from the stock of goods at REDUCED PRICES, and would inform those who are disposed to take advantage of this decline in prices, that they will find it greatly to their advantage to call and examine their assortment before purchasing, and as their stock is very complete for the winter season, purchasers will find little trouble in being suited. HOOP SKIRTS .- Martin & Penton have now several styles and patterns of skirts, including the famous "Queen of Diamonds," which they are

repared to offer cheap. DERANGEMENT OF THE LIVER AND STOMACH SHOULD attended to. Hoofland's German Bitters, prepar ed by Dr. C. M. Jacksen, Philadelphia, Pa., and sold by druggists and dealers in medicine, every-where, will cure all diseases arising from a disordered liver or stomach. ul6 d12&w2-47

SEIRTS .- Robinson & Bro. are manufacturing Hoop Skirts on a large scale. Their grand double extension, patent adjustable bustle skirt is pronounced by all who have worn them to be supeior in all respects to any ever brought before the public. They are made on an entirely new principle, from the best tempered watch spring steel, are very light and graceful, and the double adjustable bustle effectually prevents the clothes from breaking down the skirt, or throwing it forward. The hoops are so elastic and pliable that no change of position will effect the shape of the skirt. They are also manufacturing a beautiful lace or net skirt, with eleven steel suring hoops n9 d1m&w4 46

Improvement. If any housekeeper is unacquainted with the merits o this PATENT, they should, for their own interest, make inquiry of some one of the thousands who have it in use We are constantly asked by those who have had their (trates reset with this improvement, why every one does not get it at once? We know of but two reasons for the delay:

1. Many persons have been decelved by patents and ninal Improvements, and sre, therefore, disposed to avoid further impositions by rejecting everything NEW.

2. Others do not give that amount of thought to mak

C. HOLLAND, Secretary. Is a she Agent of the above Insurance Company, I solicit those wanting Fire or Marine Issurance to examine their report, which must convince every one that it has a solid foundation for the payment of all losses, and the public may rest assured that I would not have taken the agency had not I felt well-salished of its ability to pay every loss it may sustain. This Company has been in existence and doing a profitable business for the past seventien years, and its credit is established beyond all doubt.

I refer below to the note of its late worthy Agent, Mr. Vernum.

I desire to call the altention of farmers who have building llouses and Barns to insure, as this kind of frurance is particularly desired, at very low rates.

LUNAR LIGHT. THIS LAMP burns with a pure white brilliant light equal to gas, and is much cheaper than gas. The Luar Light took the first premium at the last Mechanics' Fair in Louisville. One dollar's worth of Lunar Oil gives the light of \$3 16 of Lard Oil, \$4 36 of Whale Oil, \$2 4 iof Burning Fluid, \$14 26 of Candies. Half a pint burns 15 hours, costing about 5% cents, giving a light equal to 5 or 6 star candles. Lunar Oil is not explosive, has no disarrecable smell, and is not labble to smoke. are new Pianos in this market, but they are well known in many sectious of the country as an A No. I instrument. Competent judges who have tried them pronounce them fully equal, if not superior, to the Steinway & Son's Pianos. They are a beautiful, highly finished instrument, and we can sell them at three-fourths the price of a Chickering Piano, as we do not have to pay anything for their name or reputation. We still keep a full supply of the New and Improved Scale of Chickering & Son's Grand, Paulor Grand, and Square Pianos, and as we are Cash Dealers in them, we can sell them unnually low for cash. We have also several other makes of Pianos, alt of which we warrant to give perfect satisfaction. We respectfully invite strangers visiting the city during the Pair, and all others in want of Pianos, to call and examine our complete stock, for we are selling exceedingly low for cash. The River continues stationary, with scant four and a haif feet water in the canal, the rains of Saturday proving effectual in checking the river from falling. The weather is cloudy and moder-ate, though rather cool last night, about cool enough for frost, and if it comes and another follows, it will make three, and then more rain

Our telegraphic dispatches yesterday from Cincinnati and l'attsburgh were favorable for a good stage of water again, as the river was rising at both places, with rains, including a heavy fall of snow at the latter point, followed by rain.

The officers of the mail boat yesterday report the Lattle Miami, and other streams, rising a little from the effects of the late rain, and a rise of about an inch was actually reported in Kentucky river, at the mouth. If the rain has been any ways heavy along the Kentucky it will make a good stage of water all along the lower Ohio.

At the Grassy Flats the malboats report only four and a haif feet water, and hard to find the

chance!, rurning next to the Indiana shore. This is barely as much as there is in the canal, and the Cincinnati tubs cannot abuse that famous

chute any more.

The Conewage, a heavy propeller, got caught on the flats, where she stuck hard and fast until lightened over by the Kate Sarchet. The Steve Decatur came in last evening from Cincinnati, drawing all the water, and no doubt was all night working her way though the canal. The Bowling Green came in from Cairo yesterday with a heavy cargo of gloceries for Cin-cinnai, teshipped from the Gladiator. It con-sisted of sngar and molasses, which was again reshipped on the mailboat Superior.

THE HIGH FLYER .- This famous packet, from New Orleans, had passed Evansville yesterday, and is due to day. To Sam. B. Halliday, the ac-complished clerk, we are indebted for a manifest and memorandum, forwarded from Cairo.

The High Fiver, in charge of the gallant Tom Wright, is advertised for New Orleans this evening. She is a pleasant boat, in charge of clever, attactive efficare. The liazel Dell and Cremona were due

The Bay City, on her way to St. Louis, met with an accident at Commerce, Mo., on Wednesday night. As she was backing out from the landing, her stern struck a sunken log, knocking a hole in it, and breaking several timbers. She settled down upon the log, with her bow down stream, and started her pumps. Shedid not make much water, and would probably soon be off.

The Altamont and Messenger were to have elt Cincinnati for New Orleans on Saturday, but were detained by the non readiness of Uucle Sam with his troops. The St. Louis reports the Wood at Builington in a bad fix. It is with difficulty that sleamers can get around her. The stern of the Fulton City has broken down, and the boat is daily expected to full to pieces and that away. The following we copy from the Cincinnati

Capt. Heptins' new sidewheel Ouchita packet, Tigress, wil be completed within three weeks.

Capt. Parisot leaves for Vicksburg and Yazoo river, direct, on the 5th prox., with his new packet Dew Drop. The Jacob Pec, buchd np, was aground on "Four Mile," on Saturday.

The Tornato, with a row of Pomeroy coal, sunk one of her parges at Twelve Pole, on Priday. By dispatches from Parkersburg Sunday, at noon, we learn the river had lisen three and a half teet at that point, and still swelling. This would make o er seven feet water in the channel, and gives hopes of a good rise in the Big and Lit-

Mr. Robert E. Phillips, a well known boat mad, dind in St Louis recently. He was clerk of the Plying Cloud. We learn that Red river, at Alexandria,

was rising raintly on the 17th, and was in pretty good boating order for first class boats. The Southerner. -By a special dispatch from Capt. Triplett, from Memphis, yesterday morning, we learn that the Southerner was to leave last evening. She will be due here Thursday evening, and returns to Memphis Friday evening. Disaster on the Upper Mississippi.—We learn rom the Galena Advertiser that last Saturday, as Mr. H. Van Liew, a theatrical manager, and other persons, were crossing the Mississippi river, betow St. Paul, in a lerry boat, she was run into by a steamer. Four persons, including Mr. Van Liew, another men, a woman and child, were lost overhead.

JOHN RAINE FOR NEW ORLEANS .- The superb cvening She s'arts at 4 o'clock, from l'ortland in charge of Capt. I'nderwood, a thorough boat man, with our courteous and popular friend, Capt. A. Palacio, in the clerk's odice, to attend to pas-

A. Palacio, in the clerk's office, to attend to passeng rs.

The John United arrived direct from New Orleans last eventing, and from her officers we learn that there were fully 414 teet water at Cumher land, and five feet on Scotifletown and other places. She came up without delay, and of course can go back again just as handly.

The John Raine met the E. H. Fairchild and Chancelfor at Comberland Saturday, and met the Diaga under was below Brandenburg yesterday. The Diaga, hence for New Orleans, with a big tip, had succeeded in working over the bar below New Albany, Sandty night, and Captain Sturgeon chattered the Diagnond to go down and lighten her out of the river.

The Starlight, Capt. Hayes' new Red river out, starts to New Orleans Saturday. THE PACIFIC - This great packet will probably top at Cairo, and turn back from that point. She will start ou Saturday, on the arrival of the THE WOODFORD-FOR NEW ORLEANS .-- By a spe

gallant Wood ord, from New Orleans, passed that place at 10 o'clock yesterday morning. She is due this morning, and returns direct to New Or leans to morrow, Wednesday, evening.

FOR THE LAST - DIESECT ROUTE. - The mail boat to day, is the Telegraph No. 3, unrivalled for speed and accommodations. She starts at uoon, ast, and through tickets can be obtained of Col.

The most direct, pleasant, and reliable line of travel to New York, or any of the Eastern citics, is via Cresting, or Cleveland, which runs three through trains daily. This includes the new route between the seaboard and Lake Michigan, also between Cleveland and Chicago via Crestline and Cincinnati, and Chicago via Lima. Heuceforth the company will run upon its own track, independent of all other roads. The distance over it via Pittsburgh and Philadelphia, will be less from Chicago to New York than by any other route, and there will be but one change of cars between Chicago and Philadelphia, and but two between Chicago and New York. A train will be The mail boats make close connection with the leveland route, and through tickets can always

For Cairo and Mempis.—The staunch and commodious low water packet. John Tompkins, one of the best and lightest in the fleet, takes her departure to Cairo and Memphis this morning at 19 o'clook. She is in charge of Capt. Sutton, a skilful, clever Louisville boatman, assisted in the clerk's office by Mr. Twomey, who is always courteous and attentive.

The Tompkins was detalued last evening by a Cincinnati heavy boat getting fast in the canal. She gets off this moruing punctually, starting from the city wharf, and being in charge of skill-fal officers, will go through without delay.

FOR ST. LOUIS — The fleet and complete passenger packet Die Vernon is advertised for St Louis a Saturday next. She is a famous boat, and having undergone through repairs and refitting, will be a great advantage to the trade. Captain Van Horton, who has charge of her, is a clever gentleman, and will see that travelers with him whall ha wall taken care of shall be well taken care of.
